Born Alive Child Physician Relationship

House Bill 20-1068

The bill establishes a physician-patient relationship between a physician and a child born alive (alive being defined as pulsation of umbilical cord or heart or any movement of voluntary muscles). The bill requires the physician to preserve the life of the fetus, regardless of the viability of life in the given situation. Doctors would be faced with criminal liability for performing legal abortion, as the bill creates a civil penalty of \$100,000 for a violation enforceable by the attorney general, makes a violation a class 3 felony, and makes a conviction of unprofessional conduct for licensing purposes.
